### WASHINGTON.

MEETING OF THE "NATIONAL UNION JOHNSON MEN"-ACTIVITY OF THE WHITE BOUSE LOBBY-ILLNESS OF GEN. GRANT-A LASH-ING FOR THURLOW WEED.

BY THER SHAPH TO THE TRIBUNE. Washington, Thursday, Sept. 5, 1867. There was a meeting of visiting Democratic politicians here to-night. It was secret, and newspaper men were shut out. After the meeting had adjourned, however, a number of those who had participated and remained about hotels late, talked loudly, and told most of the secrets of their meeting. A man named Sawyer, from Pittsburgh, presided, and representatives of the President's two newspaper organs. The Intelligencer and The Union, assisted in filling the other offices. The principal business done was to issue a call for funds and pass resolution, declaring Andrew Johnson the purest patriot on earth, a statesman whose only equal in American annals was the immortal Andrew Jackson, and the next Democratic candidate for President. A change in the Cabinet is demanded, and the President is being warned to beware of friends who are enemies in disguise. Judging from the talk of the anembers of the meeting, this was intended as a hit at Seward, Randall, and McCulloch. Sheridan and Sickles, and Howard and Stanton, and all Radicals in general, were denounced and branded as traitors. Speeches were made and a glorious old time had.

The lobby that has been working so long to make a change in the Cabinet having been reënforced, are actively at work. Every Democratic politician here seeks interviews with the President, and gives him a punch about his Cabinet. They cry loud for the removal of Seward and McCulloch. The lobby talk boastingly. Bets were offered to-day in the lobbies of Willard's that McCulloch would be compelied to resign before the 1st of October. Of course there were no takers, as those men who wanted to bet were fresh from the White House, and and adopted. One of the party nominated Sheridan for supposed to be well informed. Altogether Andrew Johnson's successor. The Republican, in its there is much anxiety and excitement evening edition, reviews the administration of Sheridan. there is much anxiety and excitement among people here about political matters. Johnson's intimate friends talk in enigmas, merely stating that if they could tell all they know of what Johnson says he is going to do, it would astound the

Gen. Grant has been sick to-day. He was compelled to leave the War Office shortly after he got there, and return home. The double duties of Secretary of War and General of the Armies are wearing on his health.

Gen. Wm. S. Hillyer, Special Revenue Agent at New-York, who, during the war, was on Gen. Grant's staff, has been in the city several days on business connected with his office. It seems he and Thurlow o'clock to night. Weed have had some business transactions which were not satisfactory to the former. The following letters of Mr. Weed to Gen. Grant, and Gen. Hillyer to Mr. Weed, are exceedingly interesting:

Mr, Weed to Gen. Grant. NEW-YORK, Sept. 1, 1867 Mr., Weed to Gen. Grant.

New-York, Sept. 1, 1867.

DEAR GENERAL: Public men are responsible for their friends. There is a widespread demoralization among the Internal Revenue officers. The combination here is formidable. Among others, Col. Hillyer is alleged to be implicated. If, as is represented, he is aiding the efforts to remove Mr. Rollins, facts will confirm suspicions. It is also alleged that Col. Hillyer has paid little to the Government, while his predecessor saved large amounts. There will be Congressional investigations into these revenue frands, and I am unwilling to see damaging exposures in the case of any officer for whose integrity Gen. Grant is responsible. I have no objections that Col. Hillyer sees this letter. Truly yours,
Hon. U. S. Grant.

THURLOW WEED.

Draw GENDRAL: Public mean are responsible for their grounds. There is a widespread demoralization among the control of the processor of the pr

unitted by the President to the Cabinet to-morrow, and if agreed upon may be promulgated on Monday

It is reported on the street that one class of Repubdicans here recently advised Gen. Grant to withdraw from the War Department, while another class advised him to remain, but Grant made no response.

The reports of efforts being made to induce the President to remove Mr. Rollins, Commissioner of the Internal Revenue, are exaggerated. No combined movement in that direction has been made, and no good legal grounds are suggested for his suspension. Mr. Rollins is regarded by all officials here as one whose integrity is unimpeachable. There is no one here seeking to become his successor.

A movement has already begun here among the colored people to form two or three regiments of Zonaves, for the purpose of keeping well drilled in the manual of arms. One or two companies are already organized and equipped.

Gen. Van Wyck has addressed a letter to the District-Attorney here, asking for information as to whether a firm here, called "Bently Clark & Co.," advertising a "Grand National Entertainment for the benefit of the Ladies' society in aid of the suffering poor and destitute of the South," is a lottery concern, and if so, whether it is not against the laws of the District of Columbia for lotteries to be established. "Bently Clark & Ce." advertise a long list of prizes, among which is a house on Fifth-ave., valued at \$80,000. The drawings were to take place on August 1, but have been pestponed. No reply has been received from the Distric-Attorney.

A desperate attempt was made last evening by several prisoners in jail here to break jail and escape. It is the same jail in which Surratt is confined. It was supposed to be a break for a general delivery of

A recent circular issued from the Treasury Department, addressed to the principal Collectors of Customs on the Atlantic and Pacific coasts of the United States, instructs them to inquire vigilantly into all cases of violation of the laws in relation to the Coolie trade, and to report infractions thereof immediately to the Department, as well as notify the nearest United States Attorney of the same

The Hon. O. H. Browning, Secretary of the Interior, has nearly recovered from his recent indispotion, and rode out to the White House to-day, and was also for a short time at his Department.

United States Treasurer Spinner this morning re-"HONORABLE SIR: I have this day sent to you, by the postmaster of this place, three money orders to the ceived the following letter:

"Thomas Moori."

Jerry Black and Robert J. Walker were visitors at the White House to-day. Both were indulged with

long interviews. Information has been received at the Navy Department that the yellow fever is rapidly increasing at Pensacola, Fla. Assistant-Paymaster J. W. Fairfield of the steamer Tacony, had just died of yellow fever The steamer Tacony had been ordered North.

THE REPORTED RUPTURE RETWEEN THE PRESI-DENT AND GEN. GRANT.

The Boston Post's Washington special says: A rumor of "high words at the White House" was gener ally discussed in our streets to-day (Wednesday), and was asserted and confidently believed that Postmaste ally discussed in our streets to-day (weetness by, and it was asserted and confidently believed that Postmaster-General Randall and Gen. Grant, happening to meet in the President's audience chamber, had some sharp words on the President participated. I am authorized to say that the story is without any other foundation than the fact that these two gentlemen did meet as stated. The interview between them was entirely pleasant, nor was the subject of the Proclamiton mentioned.

The correspondent of The Boston Advertiser says: In this interview, while on the subject of reconstruction, it is understood that Gen. Grant said to the President, that but for his stubborn opposition the Constitutional amendment would have been adopted, and the ten excluded States would now have been in the Union. Notwithstanding the legal difficulties thought yesterday to be in the way of Gen. Grant's removal, it seems almost certain that he will be out of the War Office within a few days.

#### GEN. SHERIDAN.

HIS DEPARTURE FROM NEW-ORLEANS AND

FAREWELL ORDER. New-Orleans, Sept. 5 .- Gen. Sheridan and the members of his personal staff left for Leavenworth-this evening, by railroad. They were escorted to the depot by the Mayor, the members of the Council, and a General in brief but complimentary terms, to which he responded. Resolutions of regret at his leaving the city were read It considers the civil administration was a failure, and regards it as the cause of the July riot. The city currency and the sanitary condition of New-Orleans are severely condemned. But the military rule of Gen. Sheridan is highly extolled.

Gen. Sheridan issued the following order this morning:

HEADQUARTERS FIFTH MILITARY DISTRICT, (
NEW-ORLEANS, La., Sept. 5, 1867. )
GENERAL ORDERS No. 31.—In accordance with the

directions contained in paragraph one, of General Orders No. 81, current series, from the Headquarters of the Army, the undersigned relinquishes command of the Fifth Military District to Brevet Major-Gen. The Fall Book-Trade Sales begun yesterday at Messrs. Leavitt, Strebeigh & Co's new rooms in the Mercantille Library building. The rooms were formally opened with a collation given to the trade by the proprietors. Mr. Leavitt presiding. About 200 publishers and bookseliers were of the company, representing every part of the country and bearly every prominent house in the United States and Canada. One of the most agreeable incidents at the dinner was the response of Mr. McCarter of South Carolina, one of the oldest book men in the United States, to the compliments of Mr. George P. Putham of this city. He spoke of the bleasure which he experienced in again meeting his brethren of the trade in the North, and congratulated them on the ancient honor of their guild. He was followed by Mr. Putham in a speech in which he alluded to the immense progress of the book trade, and spoke pleasantly of the Book Trade sales. These were, he said, a yearly advertisement, and though like all advertisement expensive, they generally brought returns in the end commensurate with the outlay, dissemminating a knowledge of what publishers had to offer to the public through the Trade. After he had concluded, a resolution of thanks to the proprietors was adopted appreciative of the excellent arrangements for the sale. The sale commenced with the invoice of J. B. Lippincott & Co. of Philadelphia, which covered 30 pages in the catalogue, and included their choicest publications was no decline in the prices which books commended at these sales at any time during the war, so that the percentile books generally brought fair prices—indeed, dieter was no decline in the prices which books somewas the was no decline in the prices which books somewas the covered of Miss Warner which books somewas the proprietors was not obecome the proprietor of the sales at any time during the war, so that the proof of Cheap books seems till distant. Among the most notice able books in the invoice of J. B. Lippincott & Co., were their beautiful set of Bniwer's novel

THE ELECTIONS.

MONTREAL, Sept. 5.—The elections to-day passed off quiety. Cartier's majority is 567; McGee's majority 561. The Volunteer Cavalry and guards of the Governor-General patroled the city, and policemen mounted, under command of their chief, were also on guard at different yards. McGee will speak at the Lawrence Hall touled.

ELECTION INTELLIGENCE.

CALIFORNIA. HAIGHT'S MAJORITY IN SAN FRANCISCO 1,000-

REDUCED UNION MAJORITIES IN THE STATE. SAN FRANCISCO, Sept. 4.—The counting of the ote of San Francisco has not yet been concluded, but it s thought that Haight (Democrat) will have 1,000 major-McCopping, the Democratic candidate for Mayor, is onbly elected; and also the majority of the Demo. eratic Legislative ticket. Returns from the interior show reduced Union majorities. Gorham, it is thought, will be elected, but the vote of the State probably close.

SAN FRANCISCO, Sept. 5.-Partial returns from less than one-half the counties in the State, but including the most populous, show large Democratic gains everywhere Halght has from 2,000 to 2,500 majority in San Francisco. It is doubtful if Gorham's majorities in the interior will aggregate enough to evercome this

LATER-A UNION LOSS IN THE LEGISLATURE.

On the general Union ticket there are probably elected at least two Congressmen. The Demoeratic Legislative ticket in San Francisco and Sacramento is probably elected. This defeats the reflection of Senator Conness. It is uncertain if the Union majority will be retained in the Legislature. If lost, Gov. Low is expected to call an extra session of the present Legislature to ratify the Constitutional Amendment. The vote is San Francisco was 17,365, about 6,000 less than the registered vote. Some thousands of Union votes were lost through apathy resulting from disgust at the split in the party. It is impossible to give a trustworthy estimate of the general

Further returns from the interior are more favorable to Haight, and render his election tolerably certain. Nothing more is known of the fate of the general Union ticket, though it is believed to be ahead. Phelps, the Union candidate for Congress in the San Fran. cisco District, is probably defeated. The Union local tickets are generally ahead in counties formerly Union. So far as heard from Fay (Independent Union) has a very small vote, but it helped the general ticket. It is the opinion of Union men that if Bidwell had been nomi. nated instead of Gorham, the State would have gone Union by 20,000 majority, and that the partial defeat is altegether owing to the disaffection in the Union ranks A great effort will be made to consolidate the Union strength for a victory at the Judicial election next month, but the Democrats claim the State irrespective of the Union party dissensions, although they admit they could have done little against Bidwell.

### ORANGE COUNTY HORSE FAIR.

THE SECOND DAY-FINAL RACES-AWARD OF PREMIUMS. BY TRIRDRAPH TO THE TRIBUNE.

two in three, to wagon or harness. First premium, \$15. second, \$8.

The first premium was won by R. Galloway's Chester in 3:15—Goshen Maid, entered by C. M. Smith, was distanced. Here a drenching rain came on which lasted an hour or more, and left the track in such a condition that further trais of speed were decimed inadvisable. There being but one outry for the \$500 sweepstakes, and but two for the six year old race—three entries being required in cach case—three races were declared off, and the processings were brought to a close. The attendance of spectators on the first day was respectable in numbers, and on the second day very large. The whole proceedings passed off without jar or discord, and to the entire satisfaction of all who participated. The officers of the Association, the Judges, Marshal Howard Shaw, and his associates, discharged their duties faithfully, impartially, and diligently, and

## THE FEMIAN CONGRESS.

CLEVELAND, O., Sept. 5 .- The Fenian Congress succeeds in keeping its proceedings to itself, and it is impossible to elicit anything bearing upon the purposes of the Brotherhood for the future. I learn, however, that nothing was done to-day that would prove of general aving reference to the adoption of measures for more horoughly perfecting the organization, particularly the chittary branch. The course of President Roberts, as stacked in his address, meets with the unanimous in-

## SEASIDE ENJOYMENTS.

The new outlet for pent-up New-Yorkers by the steam railway to Canarsie, Jamaica Bay, and Rockaway Beach, is growing deservedly popular, as the daily increasing throngs of passengers show. Yesterday the disciples of Walton had a gala day; the run of blue-fish was most extraordinary, and the jaunty little yachts that run out from the Bay View House almost hourly came in absolutely crowded with the silly fish that snapped at naked hooks. The auglers look from 20 to 75 cach, and at sunset, beside the hundreds taken off by sportsmen, there were three or four wagon-loads starting for the city, notwithstanding hundreds of inferior fish had been

city, notwithstanding hundreds of inferior fish had been thrown away.

At Mr. Falling's Bay View House, on Wednesday night, the guests and their visiting friends indulated in a "hop," which gave great delight to all concerned. It was not one of the uncomfortable high-fashion soirces that so much annoy quiet people at the more pretentious watering places, but a pleasant home affair of the kind calculated to afford the highest measure of enloyment. An excellent supper wound up a pleasant evening, and the appetite sharpening breeze from the ocean provoked ample justice to the viands.

The rathroad company are making extensive improvements at this place, and promise in due time to give us one of the most enjoyable resorts within reasonable distance of the hot and dusty metropolis. The sailing and bathing in the bay and ocean, the tishing, duck-shooting, and the bracing air, unite to attract and please all tastes.

## DOWN THE BAY A FISHING.

A soft day, a smooth-running sea, the tugboat Philip, Dodworth's Band, and 50 fishermen-all on the Cholera Banks. Bass and blue-fish, porgies, and others of the finny tribe, hauled up from the "briny deep," and flopping on the decks. A good dinner, and the resultant brotherhood of feeling. At times, a short, chopping sea, and many people consequently and intently looking over the rail. What rare sport! These gentlemen (of course there were no women—they don't go down to the deep-sea fishing grounds)—these gentlemen who salied early yesterday morning from New-York and Brooklyn will long remember it all dropping and hauling in of lines, the dancing (just fancy this "stag dance," O ye women—this dance graced not by one of your number—this dance in which were all sorts of funny people and funny scenes—one man, be it noted, weighing 339 pounds, and dancing with all the agility of a school-girl), and further, the stop at Coney Island, the march to the music up the long reach of white and treacherous sand, the speeches and songs, and all the etceteras. Of these people were the following-named: Commodore Daniel Willetts, Alderman McGinnis, Charles Trott, P. Collins, Geo. King, Phillip Grogan, Jules Johnson, Geo. Butts, Charles Johnson, Thomas Cregin, Capt. Clark. John M. Whitfield, John Galvan, H. C. Lyon, E. F. Maitland, E. Reynolds, Capt. Chas. Hazzard. J. T. Slane, Gapt. James Grove, and Z. Pearsall. And of these Messrs. McGinnis, Willetts, Maitland, and King made speeches. New-York was reached at 8 o'clock in the evening. When the good tug-boat reached the pier all these would-be fisherner voted that the day should be marked sunny in their calendar. chopping sea, and many people consequently and intently

ELOPEMENT, LARCENY, AND MARRIAGE.

A case of the sensation type was up before Justice White of Hoboken, on Wednesday, which might form a fitting theme for the pen of Miss Braddon. It appears that on the 28th of last month, Anna Edelman, a Greene-st., New-York, disappeared from her home, taking with her \$600 that had been deposited in a savings bank in her and her mother's name, which sum by some ingenious device she had contrived to draw. For a while no trace of the fugitive could be gained, even by the Argus-eyed police. But at the eleventh hour a clue was discovered, and it was ascertained that she had eloped with Alexander Kline, a young German, for whose wife she was passing, and with whom she was on the eve of sailing for Europe in a Bremen steamship. The case required prompt action, or Anna, her lover, and the \$600 would be beyond the reach of pater-familias. The old gentleman, however, proved themselves irretrievably checkmated. REPUBLICAN MEETING AT MANCHESTER.
BY TREBURE TO THE TRIBUNE RICHMOND, Sept. 5.-The workingmen and echanics of this city have recently formed an association similar to those in the North, for the purpose of advancing their interests and uniting them as a body for their common interest. The Association has been very successful, and gratifying results are anticipated. This is gotten up under the auspices of the Republican Party.

One of the largest mass meetings of white and colored people ever assembled in the State is being addressed by several Republican speakers to-night at Manchester.

Great enthusiasm prevails.

THE CONSERVATIVE CONVENTION-THE RESO-

LUTIONS. MONTGOMERY, Ala., Sept. 5 .- The Conservative Convention adjourned to-day after adopting the fol-

lowing resolutions: The Conservative men of the State of Alabama, in Convention assembled in the City of Montgomery, adopt as an expression of their views, the following resolutions of the State of Pennsylvania, adopted at a recent Convention in that State:

vention in that State:

First: The Constitution of the United States being that
form of civil government established by the founders of
the Union, with such changes as have been subsequently
made therein, in the manner prescribed by itself, is the
only rightful government binding upon every inhabitant
of all ranks, sexes, colors, years, and conditions; and it is
the duty of every one, without exception or modification,
under any circumstances, to cherish, protect, and defend
the same.

under any circumstances, to cherish, protect, and defend the same.

Second: In all conflicts of powers under that instrument the Supreme Judiciary power is the only arbiter, which is independent of, and its province superior to each of the others, and which they are bound to obey.

Third: The Union of the States is decided by the war, and accepted by the Southern people to be perpetual; and the authority of the Federal Government is supreme within its Constitutional limits.

Fourth: Congress is not the Federal Government; nor is the President, nor the Supreme Court; the Federal Government is that form of civil policy established by the Constitution, consisting of all three, each supreme in its own limits, and each entitled, equally with the others, to the loval obedience of every inhabitant of all the States.

Fifth: By the Constitution and under the fundamental law of the Federal Government, which is superior to Figh: By the Constitution and under the fundamental law of the Federal Government, which is superior to Congress, and of which Congress is the creature, representation in Congress and the Electoral College is a right fundamental and indestructible in its nature, and abiding in every State, being a duty as well as a right pertaining to the people of every State, and the denial of which is the destruction of the Federal Government.

Sixth: Each State, under the Constitution, has the exclusive right to prescribe the qualifications of its own electors.

The conservative men of Alabama adopt as a further expression of their opinions and purposes, the following:

Seventh: Resolved. That it is our earnest aim and purpose to cultivate relations of friendship, harmony, and peace between the two races; to dear justly with the blacks, and to instruct and aid in instructing them in a proper understanding of all their duties to themselves, to society and to their country, and we denounce as treacherous all attempts by bad men to engender or encourage antagonism between the two races.

Eighth: That we are inhabitants of a common country, sharers and sufferers of a common destiny, and we will do all in our power to instruct and elevate the colored race in in its moral scale and political responsibilities.

Ninth: That, while we have much charity for the colored man, and feel inclined to look indulgently and tolerantly on his prejudices of race, inculcated and encouraged as they have been by recent events and by insidious counsels of bad men, we appeal to him, by the common interests of a common country, to place his trust in those he knows to be homerable; to deal cauthously with strangers who hear no evidence that they were homerable where they are better known. #### LOCAL POLITICS. REPUBLICAN PRIMARY ELECTIONS.

The Union Republican General Committee met last evening at their headquarters, corner of Broadway and Twenty-second-st. Mr. Robert L. Darragh presided, and there was a full attendance of nembers.

Among others present were the President, Mr. Charles S. Spencer, recently returned from Europe. The only usiness transacted was in regard to appointing a time for the Fall Primary Elections. On recommendation of the Elective Committee it was resolved that the primary elections of the Radical party in this city be held on the 19th of September for the election of delegates to the Syracuse Convention, which meets on the 25th of September. The meeting then adjourned.

MOZART HALL EXECUTIVE COMMITTEE. The Democratic Executive Committee of the Mozart Hali clique met with closed doors last night. The unterrified were in full force, with the inevitable "John" unterrified were in full force, with the inevitable "John' at the door to guard against intrusion by the uninitiated outside world. Wm. P. Lee, President of the organization, was in the chair, and both Secretaries, McCarthy and Mitchell, were at their posts and courteously bamboozled the reporters, who were kept in the anto-room until the close of the conference. The only business was the vote to prepare a call for the election of one delegate from each Assembly District to represent the Democracy at the Democratic State Convention at Albany, to be held on the 3d of October. A serious split having occurred in the Seventeenth Ward over the election of a President and Secretary, the matter was laid before the meeting, and by the Executive Committee referrod back to the Ward Committee. A resolution was also adopted calling for Ward Conventions of the delegates for the reception of the Executive Committee accompanying Mr. Fernando Wood on a spouting tour through the city. This is intended to bring about the two-fold result of a more perfect organization and the reception of addresses from Mr. Wood. That gentleman has said that at his office, No. 117 Nassau-st., small brass pins are ready to be distributed to his friends for their easier recognition during the campaign.

TAMMANY HALL GENERAL COMMITTEE. The Tammany Hall General Committee met proper lot of municipal officials. In the hall up stairs it had been all arranged, however, by the various head-centers, and accordingly when the rabble were all admitted they found to their disgust that a compromise had been effected for the purpose of throwing off on the troubled waters. Where two or more delegations presented themselves from one Ward it was arranged that a division should be made so as to allow each and every faction to have a proper representation, according to its strength and standing in the Ward. Some of the Fox men from the lower Wards did not like this, and Edwin Haggerty from the Taird Ward resigned after being appointed, as his friends supposed that a trap was being prepared for his side of the house. The Perris men in the Thirteenth Ward were also disgusted with things in general and the apportionment in particular, badly denouncing Tweed, Sweeney, and and the rest of the "philosophers," as they termed the leading politicians. The meeting broke up, however, with but a few sentlies and bloody noses. But there is a good deal of trouble brewing in Tammany, and an explosion will take place in the next four weeks that will do some harm to the Head Centers of the Wigwam.

#### THE DRAMA.

BROOKLYN ACADEMY OF MUSIC.

A very large audience greeted the production of "Caste" at the Brooklyn Academy of Music last evening, by the Florence company. The piece was presented with all the furniture originally used at the Broad way Theater, and was acted with the same cast of parts. How well it was acted we need not say, having already done justice to Mr. Marlowe as Hautree, Mrs. Chanfrau as Esther, and Mrs. Florence as Polly Eccles—the chief features of the performance—and to the other personations, all of which are good. Mr. Davidge had, of course, a cordial reception at Brooklyn, where he resides. The piece was warmly welcomed. It will be repeated tomach.
